

Dar-ul-Madinah

International Islamic School System
Dawat-e-Islami

Issue number 2: 24/05/2024

Salaams, hope all our families are well. We have been busy working with children in nursery. The primary next steps we have been working on with all children, is to develop skills to share, turn take and play with other children.

MashaAllah, our children are able to sit and pay attention during Islamic session where we pray the surah and dua of the week as well as Arabic alphabets of the week!

Our outdoor area has been developed further to encourage our children to express themselves physically, and to allow opportunities for climbing, jumping running. Please spread the word with other families that are looking for a nursery place. We still have spaces in morning session!

We are breaking up for half term today. Nursery will be closed from Monday 27th May 2024 to Friday 31st of May. We will be back on Monday 3rd of June inshaAllah. We have lots of hajj activities planned for after holidays and eid related activities, leading up to Eid. After these plans, we will plan activities according to Space and Solar system.

Coming up

We are planning to set up a lending library for our families. .Every Wednesday we will have the book trolley out in corridor, please feel free to lend a book to read to your child for the week with the support of staff.

All of our children really enjoyed the trip to the library and park and were especially excited about the bus ride. We are looking to go to a local supermarket or another local park in the near future inshaAllah.

This half term we have been planting tomatoes in our garden and planting cress indoors.

We will be sending the cress home once its started to grow!

As we approach summer, our children will need suncream when we go outdoors. If you would prefer your child to wear their own, please provide us with this. We will label them and keep them in nursery.

If your child does not have suncream in the nursery, we will use nursery's own, Lacura moisturizing sun lotion with SPF 30.

Please also ensure your child has their own water bottle in nursery that we can label and keep in nursery, if we do not already have one for your child!

Thankyou
